

My name is Breanna Young, and I am running for the IAEM—USA Region 6 Secretary/Treasurer position.

My extensive experience in emergency management is a testament to my dedication and competence. I've been a member of IAEM since 2013, starting out within the Oklahoma State University Student Chapter as the Communications Officer before graduating with my Master's in Fire and Emergency Management Administration. As an emergency manager, I worked in Utah and North Carolina before returning home to the Sooner State, where I worked as a county emergency manager and now work with the State of Oklahoma as a Technology Solutions Specialist. Since working with the State of Oklahoma and being a member of IAEM, I have been a member of several committees and caucuses, including holding the seat of the Outreach and Membership Coordinator, the Chair of the Emerging Technology Committee/ Caucus, and the Oklahoma State Representative for IAEM Region 6. I recently stepped up to the position of Secretary/Treasurer after a vacancy and have been doing my best since supporting the Region 6 team in the position.

Through education and experience, I have become a detail-oriented asset in grant programs and project management, which are beneficial skills for this position. I aim to help IAEM Region 6 with documentation and ideas and welcome input from other members to enhance and expand the capabilities of our membership with Region 6. I look forward to helping where I can.
