

My name is Carl Cowan, AEM - I am the Director of Emergency Management at Harvard Medical School, and I am running for Region 1 Secretary/Treasurer. I have been an active member of IAEM since 2017, previously served as a member of the Region 1 Conference Planning Committee, and have had the pleasure of engaging professionally with members from all corners of New England. I am committed to ensuring the continued fiscal vitality of our region and understand the importance of transparency to our membership. As Secretary/Treasurer, I will carefully track Region financial activities, provide monthly reviews to the Executive Committee, and engage with membership toward maximizing development opportunities and budget security. I would bring this same level of attention and detail to capturing and maintaining records of proceedings, ensuring our collective insights and voices shape the direction of our Region. I am eager to collaboratively engage with all of you toward the continued success of IAEM Region 1 and thank you for your consideration.
