

I am Lisa Figueroa, CEM, and I would be honored to support you as the IAEM-USA Region 10 Washington State Representative. Our state is a place of extreme beauty and extreme hazards, which warrants strong emergency management representation.

I earned my Master's Degree from the Center for Homeland Defense and Security, where my research focused on federal policies and their impact on tribal emergency management. I have worked in tribal, county, rural, and municipal emergency management over my career, so I understand the varying dynamics of different jurisdictions. I am the Emergency Manager for the City of Redmond. I am also serving in my third term as the Vice Chair of IAEM's Tribal Affairs Caucus. I am committed to representing you as the Washington State Representative.
